BricsCAD Lite

1. **2D Drafting**
    - Introduction
    - Interface, viewing and navigating
    - Settings
    - The Quad cursor menu
    - Nearest Distance
    - Undo Per Entity
    - DUCS
    - Viewing
    - Structure Browser
    - Using the Manipulator
    - Blockify
    - CopyGuided
    - MoveGuided
    - AutoCAD Dynamic Blocks
    - Constraints
    - Parametric Blocks
    - The Drawing Explorer
    - Drawing Optimization
    - Working with PDF files
    - Working with TIFF files
    - File Import/Export

BricsCAD Pro

1. **3D Modeling**
   - Introduction
   - Interface, viewing and navigating
   - Basic concepts
   - Sculpting a model
   - Mechanical Parts

2. **Civil**
   - Philosophy
   - Civil tools in BricsCAD: Earthworks
   - Civil tools in BricsCAD: Alignments and Corridors
   - Filtering for TIN Surfaces

3. **Point Clouds**
   - Key principles for Point clouds in BricsCAD
   - Importing and displaying Point clouds
   - Viewing Point clouds
   - 2D and 3D drafting with point clouds

BricsCAD BIM

1. Basic

- Interface, viewing, and navigation
- Create a BIM project
- Model from 2D to 3D
- Import models
- Model with masses
- Components
- Add BIM data (a.k.a. increase alphanumerical LOD)
- Basic documentation sets
- Basic schedules

2. Advanced

- Collaboration
- Components Advanced
- Increase geometric LOD
- MEP Modeling
- Structural modeling
- Advanced documentation sets
- Advanced schedules

3. Point Cloud

- Key principles for Point clouds in BricsCAD
- Importing and displaying Point clouds
- Viewing Point clouds
- 2D and 3D drafting with Point clouds
- Generating 3D geometry with Point clouds in BricsCAD BIM
- Documentation with Point clouds in BricsCAD BIM

BricsCAD Mechanical

1. **Basic**
    - Direct modeling
    - Surface Modeling
    - 3D Constraints
    - Parameters
    - Assembly design
    - Assembly inverse kinematics
    - Parametric components
    - Drawing generation
    - Sheet metal from scratch
    - Sheet metal from solid
    - Sheet metal form features
    - Sheet metal assembly export

2. **Advanced**
    - Exploded views
    - Animation Editor
    - Advanced Sheet Metal
    - Associative Unfolding
    - T-Junctions & Tabs
    - Piping
    - Advanced BOM Manager
    - Vessel
    - Design Tables
    - Flange creation
    - Flange assembly
    - 2D Drawing
